

Stock Market Knowledge Base

What is a Stock?

A stock represents ownership in a company. Investors who own stock are called shareholders and may benefit from company growth through stock price appreciation and dividends.

What is a Stock Exchange?

A stock exchange is a marketplace where securities are traded. Examples include:

- New York Stock Exchange (NYSE)
- NASDAQ
- London Stock Exchange (LSE)

Market Capitalization

Market capitalization is calculated as:

Market Cap = Share Price × Outstanding Shares

Categories:

- Large Cap: Above \$10 Billion
- Mid Cap: \$2 Billion to \$10 Billion
- Small Cap: Below \$2 Billion

Price-to-Earnings Ratio (P/E Ratio)

P/E Ratio = Share Price / Earnings Per Share

A higher P/E may indicate growth expectations.

Earnings Per Share (EPS)

EPS = Net Income / Outstanding Shares

EPS is commonly used to evaluate profitability.

Dividend Yield

Dividend Yield = Annual Dividend / Share Price × 100

It measures dividend return relative to stock price.
